INTRODUCTION

LETTER TO SHAREHOLDERS

Richard A. Barone
Chairman

Dear Shareholder:

For what it's worth, 2006 turned out to be a more difficult year than I had anticipated. This is not to say that our results were all that bad. In fact, the Ancora Income Fund had a superb year with Class D Shares returning 8.9% against the Lehman Aggregate Index which produced about half that much.

The Ancora Equity Fund Class D Shares, although slightly behind the return of the S&P 500 Index, returned 13.0% for 2006. After a very disappointing period around mid-year, the Ancora Equity Fund gained momentum during the months leading up to year-end, and has continued to show strength through the first weeks of 2007. Likewise, the Ancora Special Opportunity Fund owned several equities which did poorly early in 2006. After this difficult start, the Fund finished the year on a very positive note and continues to outperform its benchmark, the Wilshire 5000 Index, into 2007. For 2006, Ancora Special Opportunity Class D returned 5.2%.

Ancora Bancshares performed well in 2006 against the average bank stock. Since several of our portfolio banks were acquired at premium prices during the year, Ancora Bancshares Class D Shares returned 9.2% against the S&P Small Cap Regional Bank Index which gained 6.4%. Finally, Ancora Homeland Security Fund continued to experience the fall-off of interest in homeland security companies in the wake of 9/11. For 2006, the Fund's Class D shares declined 6.8%, although late in the year we saw renewed interest in owning our portfolio companies. As a result, the Ancora Homeland Security Fund has come back strong in the first few weeks of this year.

The consensus of economists for 2007 is one of continued growth, albeit at a slower rate compared to the last several years. Likewise, slower growth will help to contain any step-up in the rate of inflation which, in turn, should keep rising interest rates in check or even result in lower rates by last quarter of 2007. In fact, some of the best fixed income managers in the business are predicting that the Federal Open Market Committee will lower the fed funds rate as much as a percentage point by year end.

This is as good as it could be for the investor – continued earnings growth and plenty of liquidity for the purchase of equities. There are a number of reasons to be cautious, however.

Although it may sound like a good growth policy to keep rates low or lower them even more in the months ahead, it will undoubtedly cause the dollar to weaken further vis a vis the other major world currencies, particularly the euro. Further, the argument goes that a weak dollar is good for the American economy as it makes U.S. manufactured goods less expensive (or more profitable) in foreign markets.

While this is true, this unofficial policy of a weak dollar to protect American jobs and open foreign markets for American products is likely to lead to continued loss of confidence on the part of foreign investors. Already it appears that China's policy of holding U.S. Government securities as its reserve currency is about to change. If China follows through with its threat to dump dollars in favor of other currencies, we will have no choice but to increase interest rates in order to protect the dollar from snowballing depreciation.

INTRODUCTION

LETTER TO SHAREHOLDERS (CONTINUED)

There are other signs of possible trouble. Inflation, for example, appears to be under control as we export our high paying jobs to countries with low labor costs, and import inexpensive foreign goods. But if the dollar continues to depreciate, the price of foreign goods is bound to increase, and importers such as Wal-Mart will have no choice but to raise prices. Moreover, the rate of inflation is already creeping up. The Fed's target zone of 1% to 2%, which seemed to be a reasonable objective a few years back, now seems a long way off from the nearly 3% we have seen in recent months.

Finally, consumer confidence, which had been fueled by increasing home prices until early 2006, and then by higher stock prices to date, could easily come to a halt in short order. Given continued weakness in residential home prices, if the stock market should have a meaningful correction in the weeks and months ahead, the consumer could cut back spending enough to send the economy into recession.

For what it's worth, and for different reasons, 2007 may be a more difficult year than anyone now anticipates. Going forward, it will be extremely important to renew our efforts on reducing risk while maintaining the potential reward of the marketplace. However cautious we become, it is our belief that real wealth is built over time through a disciplined and steady focus on finding investments in which the underlying value is not currently being recognized in the market.

Sincerely,

Richard A Barone

INTRODUCTION

ANCORA'S LEGACY

Ancora Advisors was incorporated in 2003, although its lineage dates back to 1973 when Richard Barone founded The Maxus Investment Group. In 1985, the original Maxus Mutual Fund was founded and in the mid 1990's the Maxus Investment Group merged with Gelfand Partners. Since the acquisition of Maxus by a well-known regional bank in early 2001, many of the former principals have reunited "Once Again". In January 2004, the Ancora Family of Funds commenced operation and, as we have done in the past, we will again strive to build long-term success for our clients.

Distinguishing Features of Ancora:

Consistent investment process:

Each portfolio manager applies a consistent investment philosophy and process to building and managing the funds. We employ in-house research to identify companies we believe are currently trading at a substantial discount to what we consider to be their underlying business value.

Do not over-diversify:

Our portfolios generally hold a smaller number of stocks in the portfolio (25-60 stocks, for example, rather than 100-150) which is important to our investment philosophy. By building focused portfolios, our managers' best ideas can have a meaningful impact on investment performance.

Client Focus

Our commitment to our clients is to help them reach their financial objectives by making investments in our people and technology, maintaining high standards of excellence in performance, ethics and accuracy, and to always keep our clients' interests above all others.

Independence and Stability

As an employee-owned, full-service investment firm that has operated privately since our founding, we have the independence and objectivity to focus on what we believe is best for our clients.

Experienced Investment Team

Our investment management team consists of several senior professionals involved in both equity and fixed-income management. Our professional staff averages in excess of twenty years of investment experience.

ANCORA EQUITY FUND

INVESTMENT STRATEGY

■ Invests in publicly traded equity securities or securities convertible into equity securities of companies that are leaders in their industry or have products or services which have dominance in the marketplace.

■ Tends to be overweight undervalued securities and sectors, which captures value opportunities that the index does not

■ Adheres to a disciplined portfolio re-balancing to realize capital gains, avoid over-concentration and control downside risk and volatility

■ Sell discipline helps to manage risk

FUND POSITIONING

■ Large capitalization stocks should benefit over the next several years from recent tax legislation.

■ Large cap stocks and other market leaders are now trading at low levels relative to historic valuations. The weaker dollar helps the profitability of these companies, as many of them tend to have large overseas operations.

ANCORA SPECIAL OPPORTUNITY FUND

INVESTMENT STRATEGY

- Invests in well diversified, small to mid-cap, U.S. based companies that offer the best combination of value and potential for price appreciation.
- Seeks to outperform the Wilshire 5000 with less volatility.
- Tends to be overweight undervalued securities and sectors, which captures value opportunities that the index does not

- Adheres to a disciplined portfolio re-balancing to realize capital gains, avoid over-concentration and to control downside risk and volatility

- Sell discipline helps to manage risk

FUND POSITIONING

- Opportunities such as micro-cap stocks, liquidations and takeover targets may trade with a "life of their own" and allow investors to benefit even in times of sideways market action which are not necessarily correlated with equity markets.
- Seeks investments which are selling for less than their underlying asset value or private market value, which should produce strong performance results over the long term.

(a) Inception to data reflects the annualized return since 1/05/04.

(b) Return figures reflect any change in price per share and assume the reinvestment of all distributions.

(c) The Wilshire 5000 Index measures the performance of all U.S. equity securities with readily available price data. Over 5,000 capitalization weighted security returns are used to adjust the index. It is market-value weighted (stock price times number of shares outstanding), with each stock's weighting in the Index proportionate to its market value and not available for purchase. If you were to purchase the securities that make up this index, your returns would be lower once fees and/or commissions are deducted.

The performance quoted represents past performance, which does not guarantee future results. The investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. The returns shown do not reflect deduction of taxes that a shareholder would pay on Fund distributions or the redemption of Fund shares. Current performance of the Fund may be lower or higher than the performance quoted. The Fund's investment objectives, risks, charges and expenses must be considered carefully before investing. Performance data current to the most recent month end may be obtained by calling 1-866-626-2672.

INVESTMENT STRATEGY

■ Portfolio contains primarily financial institutions such as banks, investment banking companies, stock brokerage firms and insurance companies, with an emphasis on small regional banks and community bank shares.

■ Typically invests in financial institutions that are established, but appear to be undervalued relative to their growth rates

■ Sell discipline helps to manage risk

FUND POSITIONING

■ For high functioning economies, like that of the United States, the last quarter century has brought the financial sector a cycle of growth by smaller institutions, followed by consolidation, and then another round of growth.

■ Due to the importance of this sector to the economy, there is heavy regulatory oversight and great stability. The fund seeks to capitalize of the stability of the sector along with the growth found in smaller institutions.

ANCORA HOMELAND SECURITY FUND

INVESTMENT STRATEGY

■ Portfolio contains primarily U.S. companies that provide products or services intended to prevent physical attacks against citizens or protect them from the effects of physical attacks or natural disasters

■ Invests in companies that derive a significant portion of current sales or expected future growth from areas related to defending against terrorism or mitigating the effects of such attacks.

■ May take larger positions in a smaller number of companies than a "diversified" fund may take.

■ Seeks to capitalize on increased spending on security measures in both the government and the private sectors.

FUND POSITIONING

■ It is likely that the Homeland Security sector will see future growth as a result of significant increases in both government and private funding as the country responds to the need for increased security measures.

■ Stocks exposed to this sector may also provide some downside resistance to any market decline, which is precipitated by a terrorist event.

Class C and Class D shares are identical, except as to minimum investment requirements and the services offered to and expenses borne by each class.

Investor Shares:

A minimum initial investment of \$20,000 is required to open an account to purchase Class C shares of Ancora Income Fund, Ancora Equity Fund, Ancora Special Opportunity Fund or Ancora Homeland Security Fund with subsequent minimum investments of \$1,000. However, an I.R.A. may open an account for the purchase of Class C shares of such Funds with an initial minimum investment of \$5,000 and subsequent minimum investments of \$1,000. Investment minimums may be waived at the discretion of each Fund.

Institutional Shares:

Institutional shares may be purchased with a minimum initial investment of \$1,000,000 for the purchase of Class D shares of any of the Funds (\$50,000 minimum for Bancshares) with subsequent minimum investments of \$1,000. The \$1,000,000 minimum initial investment for Class D shares does not apply to purchases by the following:

(1) **Financial institutions**, such as banks, trust companies, thrift institutions, mutual funds or other financial institutions, acting on their own behalf or on behalf of their fiduciary accounts, i.e., accounts that are charged asset-based management fees

(2) **Securities brokers** or dealers acting on their own behalf or on behalf of their clients

(3) **Directors** or employees of the Funds or of the Advisor or its affiliated companies or by the relatives of those individuals or the trustees of benefit plans covering those individuals.

These requirements may be waived in the sole discretion of the Funds.

Initial Purchase:

The initial purchase of Class C or Class D shares may be made by check or by wire in the following manner:

By Check. The Account Application which accompanies this Prospectus should be completed, signed, and sent along with a check for the initial investment payable to Ancora Income Fund, Ancora Equity Fund, Ancora Special Opportunity Fund, Ancora Bancshares or Ancora Homeland Security Fund, mailed to: Ancora Funds, 8000 Town Centre Drive, Suite 400, Broadview Heights, Ohio 44147.

By Wire. In order to expedite the investment of funds, investors may advise their bank or broker to transmit funds via Federal Reserve Wire System to: U.S. Bank, Cincinnati, Ohio, ABA# 042000013, Account # 130100789077, FBO Ancora Funds. Also provide the shareholder's name and account number. In order to obtain this needed account number and receive additional instructions, the investor may contact, prior to wiring funds, the Funds at 1-866-626-2672. The investor's bank may charge a fee for the wire transfer of funds.

Through your broker. Shares of the Ancora Funds can be purchased through your brokerage firm and held in your personal account.

HOW TO PURCHASE SHARES (continued)

Subsequent Purchases:

Investors may make additional purchases of Class C or Class D shares in the following manner:

By Check. Checks made payable to Ancora Income Fund, Ancora Equity Funds, Ancora Special Opportunity Fund, Ancora Bancshares or Ancora Homeland Security Fund should be sent, along with the stub from a previous purchase or sale confirmation, to: Ancora Funds, 8000 Town Centre Drive, Suite 400, Broadview Heights, Ohio 44147.

By Wire. Funds may be wired by following the wire instructions for an initial purchase.

By Telephone. Investors may purchase shares up to an amount equal to 3 times the market value of shares held in the shareholder's account in a Fund on the preceding day for which payment has been received, by telephoning the Funds at 1-866-626-2672 and identifying the shareholder's account by number. Shareholders wishing to avail themselves of this privilege must complete a Telephone Purchase Authorization Form which is available from the Fund.

Please see prospectus for complete instructions.

Systematic Investment Plan:

The Systematic Investment Plan permits investors to purchase shares of any Fund at monthly intervals. Provided the investor's bank or other financial institution allows automatic withdrawals, shares may be purchased by transferring funds from the account designated by the investor. At the investor's option, the account designated will be debited in the specified amount, and shares will be purchased once a month, on or about the 15th day. Only an account maintained at a domestic financial institution which is an Automated Clearing House member may be so designated. Investors desiring to participate in the Systematic Investment Plan should call the Funds at 1-866-626-2672 to obtain the appropriate forms. The Systematic Investment Plan does not assure a profit and does not protect against loss in declining markets.

Other Information Concerning Purchase of Shares:

You may purchase shares on days when the Fund is open for business. Your purchase price will be the next NAV after your purchase order, completed application and full payment have been received by the Funds or the Funds' transfer agent, except in the case of a subsequent purchase by telephone as described above, in which case the purchase price will be the next NAV after receipt of your telephone order.

All orders for the Funds must be received by the Funds or the Funds' transfer agent prior to 4:00 p.m. eastern time in order to receive that day's NAV.

Each Fund reserves the right to reject any order, to cancel any order due to non-payment and to waive or lower the investment minimums with respect to any person or class of persons. If an order is canceled because of non-payment or because your check does not clear, you will be responsible for any loss that the Fund incurs. If you are already a shareholder, the Fund can redeem shares from your account to reimburse it for any loss. The Advisor has agreed to hold each Fund harmless from net losses to that Fund resulting from the failure of a check to clear to the extent, if any, not recovered from the investor. For purchases of \$50,000 or more, each Fund may, in its discretion, require payment by wire or cashier's or certified check.

Ancora Trust

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

We have audited the accompanying statements of assets and liabilities, including the schedules of investments, of the Ancora Trust (the "Funds"), comprising Ancora Income Fund, Ancora Equity Fund, Ancora Special Opportunity Fund, Ancora Bancshares, and Ancora Homeland Security Fund as of December 31, 2006, and the related statements of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, and the financial highlights for each of the three years in the period then ended for Ancora Income Fund, Ancora Equity Fund, Ancora Special Opportunity Fund, and Ancora Bancshares and the statements of operations and changes in net assets and the financial highlights for the period January 10, 2006 (commencement of operations) through December 31, 2006 for Ancora Homeland Security Fund. These financial statements and financial highlights are the responsibility of the Funds' management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of December 31, 2006, by correspondence with the Funds' custodian and broker. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial positions of each of the Funds constituting the Ancora Trust, as of December 31, 2006, the results of their operations for the year then ended, the changes in their net assets for each of the two years in the period then ended, and their financial highlights for each of the three years in the period then ended, in conformity with accounting principles generally accepted in the United States of America.

Ancora Trust
Notes to the Financial Statements
December 31, 2006

NOTE 1. ORGANIZATION

Ancora Income Fund (the "Income Fund"), Ancora Equity Fund (the "Equity Fund"), Ancora Special Opportunity Fund (the "Special Opportunity Fund"), Ancora Bancshares (the "Bancshares") and Ancora Homeland Security Fund ("Homeland Security Fund") (each, a "Fund" and collectively, the "Funds") are each a separate series of Ancora Trust (the "Trust"), an Ohio business trust under a Declaration of Trust dated August 20, 2003. The Trust's Declaration of Trust permits the Trust to issue an unlimited number of shares of beneficial interest representing interests in separate funds of securities, and it permits the Trust to offer separate classes of each such series. The Income Fund's investment objective is to obtain a high level of income, with a secondary objective of capital appreciation. The Equity Fund's investment objective is obtaining a high total return, a combination of income and capital appreciation in the value of its shares. The Special Opportunity Fund's investment objective is obtaining a high total return. The Bancshares's investment objective is obtaining a high total return. The Homeland Security Fund's investment objective is to obtain a high total return. Each Fund is an "open-end" management investment company as defined in the Investment Company Act of 1940, as amended (the "1940 Act"). Each Fund, other than Bancshares and Homeland Security Fund, is a "diversified" company as defined in the 1940 Act. The Board of Trustees (the "Board") of the Trust has authorized that shares of the Funds may be offered in two classes: Class C and Class D. Class C and Class D shares are identical, except as to minimum investment requirements and the services offered to and expenses borne by each class. Class C shares are a no-load share class. Class D shares are offered continuously at net asset value. There is a redemption fee for Class D of Bancshares of 1.75% in the first year declining to 1.00% in the second year and eliminated thereafter. Each class is subject to a different distribution and shareholder service fee. Income and realized/unrealized gains or losses are allocated to each class based on relative net assets. The investment advisor of the Funds is Ancora Advisors LLC (the "Advisor").

NOTE 2. SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies followed by the Funds in the preparation of their financial statements.

Security Valuation - The value of each portfolio instrument held by the Funds is determined by using market prices. Market prices may be determined on the basis of prices furnished by a pricing service. If market quotations are not readily available or if an event occurs after the close of the exchange on which the Funds' portfolio securities are principally traded, which, in the Advisor's opinion has materially affected the price of those securities, the Funds may use fair value pricing procedures established by the Board of Trustees to determine fair value of such securities. When fair value pricing is employed, the prices of securities used by the Funds to calculate their net asset value may differ from quoted or published prices of the same securities.

FASB 157

In September 2006, the FASB issued SFAS No. 157, Fair Value Measurements, which defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements. The provisions of SFAS No. 157 are effective for fiscal years beginning after November 15, 2007. SFAS No. 157 provides a single definition of fair value, a hierarchy for measuring fair value and expanded disclosures about fair value measurements. Management is evaluating the application of SFAS No. 157 to the Funds and believes the impact will be limited to expanding disclosures resulting from the adoption of SFAS No. 157 on the Funds' financial statements.

Use Of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results could differ from those estimates.

NOTE 2. SIGNIFICANT ACCOUNTING POLICIES – continued

Federal Income Taxes - The Funds' policy is to continue to comply with the requirements of sub-chapter M of the Internal Revenue Code, as amended, that are applicable to regulated investment companies and to distribute all its taxable income to its shareholders. Therefore, no federal income tax provision is required.

In June 2006, the Financial Accounting Standards Board (FASB) issued FASB Interpretation 48 (FIN 48), "Accounting for Uncertainty in Income Taxes." The standard defines the threshold for recognizing the benefits of a tax-return positions in the financial statements as "more-likely-than-not" to be sustained by the taxing authority and requires the measurement of a tax position meeting the more-likely-than-not criterion, based on the largest benefit that is more than 50% likely to be realized. FIN 48 is effective as of the beginning of the fiscal year beginning after December 15, 2006 (January 1, 2007 for calendar-year companies). At adoption, companies must adjust their financial statements to reflect only those tax positions that are more-likely-than-not to be sustained as of the adoption date. Fund management is currently evaluating the impact that FIN 48 will have on the Funds' financial statements.

Distributions To Shareholders – The Income Fund intends to distribute substantially all of its net investment income, if any, as dividends to its shareholders on a monthly basis. The Equity Fund, Special Opportunity Fund, Bancshares and Homeland Security Fund intend to distribute substantially all of their net investment income, if any, as dividends to their shareholders on at least an annual basis. Distributions to shareholders are recorded on the ex-dividend date. All the Funds intend to distribute their net realized long term capital gains and net realized short term capital gains, if any, at least once a year. The treatment for financial reporting purposes of distributions made to shareholders during the year from net investment income or net realized capital gains may differ from their ultimate treatment for federal income tax purposes. These differences are caused by differences in the timing and recognition of certain components of income, expense, or realized capital gain for federal income tax purposes. Where such differences are permanent in nature, they are reclassified in the components of the net assets based on their ultimate characterization for federal income tax purposes. Any such reclassifications will have no effect on net assets, the results of operations, or net asset value per share of a Fund. At December 31, 2006, the following reclassifications were made.

The Income Fund had a reclassification of \$79,874 from distributions in excess of net investment income to paid in capital. The Equity Fund had a reclassification of \$1,091 of net investment loss to net realized short-term gains and \$12,205 from net investment loss to paid in capital, in addition to a reclassification of \$121,241 of distributions in excess of net realized capital gains to paid in capital. The Special Opportunity Fund had a reclassification of \$18,375 of net investment loss to paid in capital, and a reclassification of \$395,350 of distributions in excess of net realized capital gains to paid in capital, in addition to a reclassification of \$11,029 of net investment loss to net realized short term gains. Bancshares had a reclassification of \$2,857 of net investment loss to net realized short-term gains and \$36,109 of net investment loss to paid in capital, in addition to a reclassification of \$13,531 of distributions in excess of net realized capital gains. Homeland Security Fund had a reclassification of \$58,281 of net investment loss to paid in capital.

Other - The Funds follow industry practice and record security transactions based on the trade date. The specific identification method is used for determining gains or losses for financial statements and income tax purposes. Dividend income is recorded on the ex-dividend date and interest income is recorded on an accrual basis. Discounts and premiums on securities purchased are amortized or accreted using the effective interest method.

Expenses – Expenses incurred by the Trust that do not relate to a specific fund of the Trust are allocated to the individual funds based on each funds' relative net assets or other appropriate basis as determined by the Board.

NOTE 3. FEES AND OTHER TRANSACTIONS WITH AFFILIATES

The Trust retains Ancora Advisors LLC to manage the Funds' investments. As a controlling member of the Advisor, Richard A. Barone, Chairman of the Trust, is regarded to control the Advisor for purposes of the 1940 Act. Under the terms of the Investment Advisory Agreement, (the "Agreement"), the Advisor manages the Funds' investments in accordance with the stated policies of the Funds, subject to approval of the Board. The Advisor makes investment decisions for each Fund and places the purchase and sale orders for portfolio transactions. As compensation for management services, the Income Fund, Equity Fund, Special Opportunity Fund and Homeland Security Fund are obligated to pay the Advisor a fee computed and accrued daily and paid monthly at an annual rate of 1.00% of the average daily net assets of each Fund. The Bancshares is obligated to pay the Advisor a fee computed and accrued daily and paid monthly at an annual rate of 1.50% of the average daily net assets of the Fund. For the year ended December 31, 2006, the Advisor earned fees of \$172,071 from the Income Fund, \$160,776 from the Equity Fund, \$139,442 from the Special Opportunity Fund, \$32,936 from the Bancshares, and \$27,601 from the Homeland Security Fund. The Advisor has voluntarily agreed to waive management fees in order to limit total annual operating expenses for the Income Fund to 2.00% for Class C shares and 1.75% for Class D Shares. These waivers may be discontinued at any time. For the year ended December 31, 2006, the Advisor waived fees of \$6,106 for the Income Fund. At December 31, 2006, payables to the Advisor were \$14,992, \$14,467, \$11,725, \$3,072, and \$1,853 for the Income Fund, Equity Fund, Special Opportunity Fund, Bancshares and Homeland Security Fund, respectively. The Advisor has voluntarily agreed to waive its fee and/or reimburse the Equity Fund, Special Opportunity Fund, Bancshares and Homeland Security Fund in an amount, if any, by which each of the Funds' total annual operating expenses exceed five percent of the average net assets of such Fund.

The Funds have adopted a Distribution and Shareholder Servicing Plan (each such plan, a "Distribution Plan") pursuant to Rule 12b-1 under the Investment Company Act of 1940 for each class of shares authorized. The principal activities for which payments will be made include (i) compensation of securities dealers (including Ancora Securities Inc.) and others for distribution services and (ii) advertising. In addition, each of the Funds shall pay service fees pursuant to agreements with dealers (including Ancora Securities Inc.) or other servicers. Richard A. Barone, Chairman of the Trust and controlling shareholder of Ancora Capital, Inc., the parent company of Ancora Securities Inc., has an indirect financial interest in the operation of the Plan.

For the year ended December 31, 2006 the fees paid were as follows:

Fund	Annual Rate	Fees Earned	Amount payable at December 31, 2006

NOTE 3. FEES AND OTHER TRANSACTIONS WITH AFFILIATES - continued

The Funds have entered into an Administration Agreement with Ancora Capital, Inc. Pursuant to the Administration Agreement, each of the Funds will pay an administration fee equal to 0.10% of average net assets of each Fund monthly. Under the Administration Agreement, Ancora Capital, Inc. will assist in maintaining office facilities, furnish clerical services, prepare and file documents with the Securities Exchange Commission, coordinate the filing of tax returns, assist with the preparation of the Funds' Annual and Semi-Annual Reports to shareholders, monitor the Funds' expense accruals and pay all expenses, monitor the Funds' sub-chapter M status, maintain the Funds' fidelity bond, monitor each Funds' compliance with such Funds' policies and limitations as set forth in the Prospectus and Statement of Additional Information and generally assist in the Funds' operations. For the year ended December 31, 2006, Ancora Capital Inc. earned \$17,191 from the Income Fund, \$16,078 from the Equity Fund, \$13,944 from the Special Opportunity Fund, \$2,196 from Bancshares, and \$2,776 from the Homeland Security Fund. As of December 31, 2006, Ancora Capital Inc. was owed \$1,483, \$1,447, \$1,172, \$191, and \$196 by the Income Fund, Equity Fund, Special Opportunity Fund, Bancshares and Homeland Security Fund, respectively, for administrative services.

The Funds' Board of Trustees has determined that any portfolio transaction for any of the Funds may be effected through Ancora Securities Inc., if, in the Advisor's judgment, the use of Ancora Securities Inc. is likely to result in price and execution at least as favorable as those of other qualified brokers, and if, in the transaction, Ancora Securities Inc. charges the Fund a commission rate consistent with those charged by Ancora Securities Inc. to comparable unaffiliated customers in similar transactions. For the year ended December 31, 2006, Ancora Securities Inc. received commissions on security transactions of \$22,294 for the Income Fund, \$18,763 for the Equity Fund, \$43,013 for the Special Opportunity Fund, \$551 for Bancshares, and \$2,715 for Homeland Security Fund.

Effective December 31, 2006, the Trust retains Ancora Securities, Inc. (the "Distributor"), to act as the principal distributor of its shares. The Distributor is an affiliate of the Advisor and serves without compensation.

NOTE 4. INVESTMENTS

For the year ended December 31, 2006, purchases and sales of investment securities, other than short-term investments and short-term U.S. Government obligations were as follows:

NOTE 5. BENEFICIAL OWNERSHIP

The beneficial ownership, either directly or indirectly, of more than 25% of the voting securities of a fund creates a presumption of control of the fund, under Section 2(a)(9) of the Investment Company Act of 1940. As of December 31, 2006 Pershing & Company owned, for the benefit of its customers, the following percentages of the outstanding shares:

Ancora Income Fund Class C	92.03%
Ancora Income Fund Class D	91.12%
Ancora Equity Fund Class C	95.73%
Ancora Equity Fund Class D	97.78%
Ancora Special Opportunity Fund Class C	96.35%
Ancora Special Opportunity Fund Class D	94.81%
Ancora Bancshares Class D	95.04%
Ancora Homeland Security Fund Class C	96.91%
Ancora Homeland Security Fund Class D	100.00%

NOTE 6. CAPITAL LOSS CARRYFORWARDS

At December 31, 2006, the Income Fund had available for federal tax purposes an unused capital loss carryforward of \$379,543, of which \$62,956 expires in 2012 and \$316,587 expires in 2014. The Homeland Security Fund had an unused capital loss carryforward of \$19,551, which expires in 2014. To the extent this carryforward is used to offset future capital gains, it is probable that the amount offset will not be distributed to shareholders.

The difference between book basis and tax basis unrealized appreciation (depreciation) is attributable to the tax deferral of post-October losses and losses on wash sales.

APPROVAL OF NEW MANAGEMENT AGREEMENT – (UNAUDITED)

At a meeting on August 9, 2006, the Board of Trustees approved a new Management Agreement with Ancora Advisors LLC. In addition to approval by the Board of Trustees, the new Management Agreement was also approved by shareholders of each Fund at a Special Meeting of Shareholders on October 5, 2006. Under the Advisor's operating agreement, non-voting units held by certain of the Advisor's investors were converted to voting units of the Advisor on November 1, 2006 (the "Transaction"). Under the Investment Company Act of 1940, the Transaction may be deemed an "assignment" that automatically terminates the existing investment advisory agreement between each Fund and Advisor. In order for the Advisor to continue to serve as Investment Advisor to the Funds after completion of the Transaction, a new Management Agreement between the Trust on behalf of each Fund and the Advisor was necessary. The new Management Agreement was virtually identical to the old Management Agreement.

The Board considered the fairness and reasonableness of the terms of the Management Agreement with respect to each Fund. The Board considered the factors discussed below, among others. No single factor determined whether the Board approved the Management Agreement; rather, the Board made its decision based on a totality of the circumstances.

Nature, Extent and Quality of Services

The Board concluded that the Advisor has a high level of expertise in managing assets of the type held by the Funds and that the services provided by the Advisor to the Funds are of high quality.

With respect to Ancora Income Fund, the Board considered that the Fund is actively managed compared to other income funds. The Board also noted that the Advisor seeks to obtain better results than a typical income fund might expect by diligently seeking out convertible securities that become available at a price lower than their underlying value. With respect to Ancora Equity Fund and Ancora Special Opportunity Fund, the Board considered that both Funds are actively managed.

The Board noted that the management fee for Ancora Bancshares is 1.5%; however, the Board noted that the Fund will be actively managed. The Board also noted that since most community banks are not followed by analysts, all research will be originated internally, e.g., the Advisor will conduct interviews of management and directors of community banks and evaluate a bank's performance in the community it is intended to serve. The Board noted that Robert N. Barone, co-portfolio manager of the Fund and a prior Professor of Economics, started a bank in 1985 and ran it successfully until he sold it in 1998. Robert N. Barone has also served as Chairman and Director of the Federal Home Loan Bank of San Francisco.

Comparisons

The Board also reviewed information regarding management fees charged by advisers to other smaller funds. This chart showed that the 1.0% management fee charged to the Funds other than Ancora Bancshares is below the median fee paid by other comparably sized funds, and the 1.5% fee charged to Ancora Bancshares is approximately the median fee paid by comparably sized funds. In light of these comparisons, the Board concluded that the terms of the Management Agreement are fair and reasonable. The Board also noted that the Advisor does not benefit from any "soft dollar" or similar arrangements with respect to the Funds.

Investment Performance

Generally, for the year 2005 the Funds performed close to or above the comparable indexes. The only exception was Ancora Bancshares, which was underinvested at the commencement of operations and therefore missed a run-up in prices of bank stocks in 2005. The Board also reviewed the performance for the first six months of 2006 and determined that overall, the recent performance of the Funds were satisfactory.

Cost and Profitability

The Board also considered the profitability of the Management Agreement to the Advisor and to Ancora Securities, Inc., an affiliate of the Advisor. The Board noted that the Funds are not expected to have

APPROVAL OF NEW MANAGEMENT AGREEMENT – (UNAUDITED) - (continued)

substantial assets for some time, and, therefore, it is not anticipated that the Management Agreement will be particularly profitable to the Advisor. The Board reviewed cost data showing that the profits made by the Advisor and its affiliates in respect of their activities on behalf of the Funds were quite modest. The Board noted that at this time the Advisor's compensation is not high relative to the experience of the Advisor and the nature and quality of the services performed by the Advisor.

With respect to Ancora Securities, Inc., the Board considered the reasonableness of brokerage commissions paid. The Board determined that the commissions paid to Ancora Securities, Inc. are reasonable relative to the market rates. Moreover, the volume of such commissions was not significant.

Economies of Scale

The Board noted that at this time, the fee structure does not account for the benefit of economies of scale because the Funds have insufficient assets for economies of scale to be realized. Currently, the fee structure provides for a flat percentage rate. Once assets under management grow to substantially higher levels, economies of scale may begin to take effect and benefit the Advisor. At such future time, it may be appropriate for the Board to review the fee structure to determine whether the management fees as a percent of assets under management might be reduced. The Board noted that any such discussion was premature at this time since assets would have to grow substantially above current levels before economies of scale would be realized for the Advisor.

Other Factors

The Board also noted that the Management Agreement is terminable by either party on 60 days notice. The Board noted that, pursuant to the requirements of the 1940 Act, it would regularly review the terms of the Management Agreement in light of changing conditions and seek to amend or terminate the Management Agreement as necessary.

After its consideration of the above, the Board concluded that the terms of the Management Agreement continued to be fair and reasonable and in the best interests of each Fund and its shareholders.

FUND EXPENSES

FUND EXPENSES

ABOUT YOUR FUND'S EXPENSES - (UNAUDITED)

As a shareholder of the Fund, you incur two types of costs: (1) transaction costs, including sales charges (loads) on purchase payments, reinvested dividends, or other distributions; redemption fees; and exchange fees; and (2) ongoing costs, including management fees; distribution and/or service (12b-1) fees; and other Fund expenses. This Example is intended to help you understand your ongoing costs (in dollars) of investing in the Fund and to compare these costs with the ongoing costs of investing in other mutual funds.

The Example is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period from July 1, 2006 to December 31, 2006.

Actual Expenses

The first rows of the table below provide information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line under the heading entitled "Expenses Paid During Period" to estimate the expenses you paid on your account during this period.

Hypothetical Example for Comparison Purposes

The second rows of the table below provide information about hypothetical account values and hypothetical expenses based on each Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Funds and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as sales charges (loads), redemption fees, or exchange fees. Therefore, the second line of the table is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.
